Strategic Goals for Information Sharing

Mission: Improve the Nation’s cybersecurity posture by identifying standards and guidelines for robust and effective information sharing and analysis related to cybersecurity risks, incidents and best practices.

Vision: A more secure and resilient Nation that is connected, informed and empowered.

“The cyber threat is one of the most serious economic and national security challenges we face as a Nation.”

President Barack Obama, March 2010

## TLP Definitions and Usage

<table>
<thead>
<tr>
<th>Color</th>
<th>When should it be used?</th>
<th>How may it be shared?</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>TLP:RED</strong></td>
<td>Sources may use TLP:RED when information cannot be effectively acted upon by additional parties, and could lead to impacts on a party's privacy, reputation, or operations if misused.</td>
<td>Recipients may not share TLP:RED information with any parties outside of the specific exchange, meeting, or conversation in which it was originally disclosed. In the context of a meeting, for example, TLP:RED information is limited to those present at the meeting. In most circumstances, TLP:RED should be exchanged verbally or in person.</td>
</tr>
<tr>
<td><strong>TLP:AMBER</strong></td>
<td>Sources may use TLP:AMBER when information requires support to be effectively acted upon, yet carries risks to privacy, reputation, or operations if shared outside of the organizations involved.</td>
<td>Recipients may only share TLP:AMBER information with members of their own organization, and with clients or customers who need to know the information to protect themselves or prevent further harm. Sources are at liberty to specify additional intended limits of the sharing; these must be adhered to.</td>
</tr>
<tr>
<td><strong>TLP:GREEN</strong></td>
<td>Sources may use TLP:GREEN when information is useful for the awareness of all participating organizations as well as with peers within the broader community or sector.</td>
<td>Recipients may share TLP:GREEN information with peers and partner organizations within their sector or community, but not via publicly accessible channels. Information in this category can be circulated widely within a particular community. TLP:GREEN information may not be released outside of the community.</td>
</tr>
<tr>
<td><strong>TLP:WHITE</strong></td>
<td>Sources may use TLP:WHITE when information carries minimal or no foreseeable risk of misuse, in accordance with applicable rules and procedures for public release.</td>
<td>Subject to standard copyright rules. TLP:WHITE information may be distributed without restriction.</td>
</tr>

- Visit the Future Products Page on ISAO.org for more information
• The ISAO SO is currently seeking new members to work on the development of documents and products related to *Information Sharing Analysis*.

• The Analysis Working Group will be focused on developing documents to address these and other issues:
  • Define the ability of an ISAO to perform analysis on member information that is shared within the ISAO and on information shared from external sources.
  • Some ISAOs will have strong analytical capabilities but others likely will be limited to sharing and will lack analysis capabilities. Define a process that will accommodate this disparity.
  • Prescribe the level of analysis (e.g. network traffic, malware, mitigation action) to be done by ISAOs.
    • Introductory and Intermediate Analysis guidelines for new, emerging and established ISAOs
  • Apply to be part of Working Group 7 Leadership (Co-Chair), a core development team, or a general member on ISAO.org
  • Co-Chair: David Sula, Lead Engineer/Trainer for Booz Allen Hamilton/Leidos
Call for Working Group Members

- 150+ experts from various industry sectors, government, and academia already participating in Working Groups

**For those who’d like to join:**

Inaugural International Information Sharing Conference

Join the international information sharing community as we conclude National Cybersecurity Awareness Month at this groundbreaking two-day event!

Don’t miss the opportunity to meet practitioners from small businesses to multi-national corporations, and from information sharing newcomers to well-established cybersecurity organizations. Attendees will gain the knowledge needed to successfully navigate the ecosystem with:

- **Keynote Speakers** by Industry, Senior Government, and International Thought Leaders
- **Educational Seminars**
- **Technology Demonstrations**
- **Networking Events**
- **Expo Hall**

This unique conference will go beyond discussing current cyber information sharing topics, and will provide opportunities to see competing approaches and innovations in platforms and services. It’s the only conference to bring industry, government, service providers and vendors together to address your organization’s information sharing challenges. **Register today!**

**EARLY BIRD: $295 ’til May 31st**

*Use #IISC2017 on Twitter to join the conversation!*
Call for Topics and Speakers

• ISAO SO is looking for information sharing practitioners, innovative vendors, thought leaders, and policy makers to share their expertise at the upcoming conference.

• Proposals should provide practical advice and solutions to attendees of the conference and equip them with the knowledge to meet today’s ever-changing cybersecurity challenges.

• Evaluated on the value provided to ISAOs and the community at large.

• Visit ISAO SO website for more details!

Submit Abstracts by May 31!
In conjunction with the conference, there will be a vendor expo showcasing the latest products and services.
